Lifelong
Learning
Programme

This project has been funded with
support from the European Commission.

***WP1. Project
management***

**Per garantire un'adeguata gestione del progetto e la
collaborazione della partnership**

***WP2. Quality
Management***

**Per garantire la qualità dei processi e dei risultati di
progetto nonché il loro raggiungimento.**

***WP3. Needs
Analysis:
Anticipation and
analysis of training
and skill needs***

**Per preparare il terreno per il trasferimento degli strumenti
e delle metodologie innovative attraverso analisi dei
bisogni**

***WP4. Adaptation of
curriculum and
development of
basic training for
pest control workers***

**Adattare il curriculum and la metodologia del progetto
'LABITAS' alle esigenze dei beneficiari di progetto sulla base
dei risultati dell'analisi ottenuta nel WP3**

This communication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

www.pestpractice.eu

**WP5. Pilot
testing of
curriculum and
training material**

Ha lo scopo di: (1) testare e convalidare il percorso formativo attraverso un'esperienza pilota, (2) raccogliere il feedback da parte dei partecipanti del gruppo target e la collaborazione delle organizzazioni, e (3) mettere a punto gli elementi da fornire di conseguenza

**WP6.
Dissemination**

Attività di comunicazione

**WP7.
Exploitation and
Sustainability**

diffusione continua dei risultati del progetto a tutti gli stakeholder e decisori, nonché alla comunità scientifica; favorire la sostenibilità dei risultati in particolare dopo la fine del ciclo di vita del progetto

Lifelong Learning Programme

This project has been funded with support from the European Commission.

Obiettivi:

- fornire strategia di intervento, ben focalizzata sulle esigenze delle aziende di disinfestazione in accordo con le Regioni e in piena conformità con il quadro legislativo dell' UE per l'autorizzazione degli agenti chimici di controllo dei parassiti (es direttiva 98/8 / CE e nuovo regolamento (UE) n 528/2012)
- garantire che i biocidi (che includono gli agenti antiparassitari) siano utilizzati in modo da ridurre i rischi del loro uso per la salute umana e l'ambiente.

Progetto Pest Practice:

Ha utilizzato materiale educativo per aiutare gli stakeholder a:

- comprendere gli strumenti necessari per l'identificazione dei parassiti comuni che si trovano nelle città
- permettere opzioni di controllo più efficaci.

Come?

discussione per gli agenti chimici comunemente utilizzati come biocidi nelle aree urbane e suburbane, le loro tecniche di applicazione, la loro fisica di base e la chimica e le loro proprietà tossicologiche ed ecotossicologiche.

Costruzione di una Rete di esperti attraverso la collaborazione transfrontaliera. Questo aiuterà i soggetti interessati ad arricchire la gestione del know-how grazie allo sviluppo delle relazioni tra gli operatori del settore. Ultimo, ma non meno importante, il progetto pone particolare impegno verso i responsabili politici, al fine di aumentare la disponibilità di conoscenze PMI per la valorizzazione futuro.

Risultati:

- Supportare le Piccole e Medie Imprese (PMI) del settore disinfestazione nell'implementazione di sistemi di gestione del personale basati su principi di sicurezza, in grado di aumentare la loro competitività nella fascia alta del mercato.
- Fornire alle PMI del settore disinfestazione idonei training metodologici e organizzativi mirati alle esigenze più attuali del mercato. Questo permetterà alle aziende di allinearsi con la normativa europea e nazionale di riferimento in materia.
- aggiornamento mirato per il settore pubblico e privato in modo da rispondere al meglio alle condizioni operative specifiche che essi incontrano nell'esplicare le loro mansioni.

Corso di formazione sperimentale

Sviluppare un corso di formazione di base focalizzato sulle esigenze degli addetti al controllo dei parassiti, sulla base dei risultati delle ricerche effettuate a livello locale

- Durata: 12 ore
- E-Learning e attività in aula
